Daily Activity Diary (example)

Week [insert the number of the week ie. if this is the first week you've kept a diary – insert 1]

Date [insert the date of the first Monday of the week]

	Morning Pain Score	Work Commitment	Chores & Errands	Social	Exercise & Activity	Evening Pain Score
Monday	3	6 hours sitting	Post office	Barbecue with friends	Baseline _10_ mins walking	7
Tuesday	4	6 hours computer			Planned _10_ mins Achieved _8_ mins	6 

Working Out Your Baseline

Set a Goal

I would like to be able to _____

for _____ minutes a day

(choose an activity or exercise be it walking the dog or swimming, a yoga class)

Ask yourself the question realistically what can you manage pain free

At the moment if I _____ (the activity/exercise)

For _____ minutes I will not be able to do anything else the rest of the day or even tomorrow

For _____ minutes I will be sore and need to rest

For _____ minutes I may be sore

For _____ minutes I know I can do without pain flaring up

Once you have worked backwards to the point where you know you can manage without pain – that is your starting point, your baseline.

No Pain

Discomforting

Distressing

Intense

Utterly
Horrible

Unimaginable
Unspeakable

Very Mild

Tolerable

Very
Distressing

Very
Intense

Excruciating
Unbearable
